Dear Bob:

I returned today from two weeks in Washington and Ann Arbor to find your letter waiting for me. Thank you very much for sending the manuscript by Harry Roberts. I would indeed like to make some comments in reply to it. Could you give me an idea of your publishing schedule? I should have no trouble meeting it.

I might say that I believe that the paper is a very useful contribution to the discussion of this subject, and worth publishing. I am in agreement with many of the points Roberts raises; we differ to some extent as to the bearing of these points upon the conjectures advanced in my earlier article. Of course, my own thinking on the subject has developed considerably since my article appeared last November, in some cases along just the lines that Roberts suggests. However, I do welcome the opportunity to comment on some matters of interpretation where we are in disagreement.

Yours,
